

TOPS Software

Web Site Service

**Reduce call volume and build stronger community bonds with TOPS Software's new service:
Management & Community Web Sites**

Provide protected owner information online. Provide board members with financial reports. Gain technical advantages over competitors. Increase community participation. Increase community value and appeal.

All of these and more are the benefits you gain from TOPS Software Management and Community Web Sites. Following are a list of some of the features available with this service:

- Financial Reports for BOD
- Owner Information
- Current Balance
- Work Orders
- CC&R Violations
- Community Documents
- Announcements
- Events Calendar
- Classified Advertising
- E-mail Bulletins
- Custom E-forms
- Secure Voting

You can setup TOPS 2000™ to update your community data to the Internet on a regularly scheduled basis. Owners can log in using the unique login information generated by TOPS 2000™ to have instant access to the above information. This allows owners and board members to have access to community information 24 hours a day, 7 days a week.

TOPS Software is proud to offer Management Company Web Sites, and Community Web Sites!
